ANKUSH KUNDAPURA ANNAIAH

Tech and software developer | Interested in Tech and innovation |
GenAi developer intern at HiDevs
Bengaluru, Karnataka, India

Summary

Hi, I'm Ankush Kundapura Annaiah, a passionate and curious engineering student currently pursuing B.Tech in Computer Science Engineering (AI & ML). My decision to choose this specialization stems from a strong interest in Artificial Intelligence, Machine Learning, and software development, and a desire to build intelligent solutions that create real-world impact.

I completed my 11th and 12th education at Excel PU College and my schooling at MNR School of Excellence, where I developed a solid academic foundation along with problem-solving and analytical thinking skills. These experiences shaped my interest in technology and motivated me to explore emerging domains in computer science.

As a learner, I am enthusiastic about:

Artificial Intelligence & Machine Learning

Software Development

Data-driven problem solving

Continuous learning and innovation

I enjoy working on projects, experimenting with new technologies, and constantly upgrading my skills to stay relevant in the fast-evolving tech landscape. I am open to opportunities that allow me to learn, collaborate, and contribute to impactful projects in AI and software engineering.

Always eager to connect with like-minded individuals, mentors, and professionals in the tech community.
